Welcome to the Chewy Tubes® Family of Products!

Introducing the Sensory Spoon™!

Developed and tested by expert Pediatric Speech
and Occupational Feeding Therapists

Baby's First **SELF-FEEDING** Spoon!

- For babies ages 7 months to 3 years
- Unique soft bowl, gentle for little mouths
- Perfect size for little hands to hold
- Knobby handle helps stimulate baby's grasp
- Helps develop eye-to-hand and hand-to-mouth coordination
- Fits comfortably into baby's small mouth
- Easy to clean, top level dishwasher safe
- Adult supervision required

Care/Cleaning

Please inspect your **Sensory Spoon™** before each use. Replace when signs of wear are visible. Clean your **Sensory Spoon™** by washing with mild soap and water.

Children 3 years of age and younger require adult supervision.

*Our **Sensory Spoons™** like all our **Chewy Tubes®** products are free of latex, lead, BPA, PVC, silicone and phthalates. All material is FDA compliant. Not intended for children over 3 years.*

All **Chewy Tubes®** brand products are made of USFDA approved materials. Not a toy. **Do Not Eat.**
